Contents of Volume 17

Volume 17 No. 1 January 1998

LUCIO LIRER and LIVIA VITELLI / Volcanic Risk Assessment and Mapping in the Vesuvian Area Using GIS 1–15

A. TERAMO, D. TERMINI, E. STILLITANI and A. BOTTARI / An Anisotropic Modelling for the Determination of Regional Attenuation Coefficients 17–30

M. GUESMIA, PH. HEINRICH and C. MARIOTTI / Numerical Simulation of the 1969 Portuguese Tsunami by a Finite Element Method 31–46

AHMED A. ABDEL-MEGUID, LAILA A. FAYED, MOSTAFA E. MOSTAFA and MOHAMED S. MOSTAFA / Geotechnical and Environmental Hazards in Desert New Cities: A Case Study of El Minia El Gedida Site, Egypt 47–67

XU MAOQI, XU WEI and LUO SHOUGUI / A New Categorization of Types of Slope Collapse in Mountain Areas 69–76

E. BINAGHI, L. LUZI, P. MADELLA, F. PERGALANI and A. RAMPINI / Slope Instability Zonation: A Comparison Between Certainty Factor and Fuzzy Dempster–Shafer Approaches 77–97

Book Review:
David Evans: *A History of Nature Conservation in Britain* (CINNA LOMNITZ) 99–100

Volume 17 No. 2 March 1998

AZM S. AL-HOMOUD and ABDEL-QADER FANDI AMRAT / Comparison Between Recorded and Derived Horizontal Peak Ground Accelerations in Jordan 101–115

I. V. LAVRENOV / The Wave Energy Concentration at the Agulhas Current off South Africa 117–127

MOHAMED NAAIM and IBRAHIM GURER / Two-Phase Numerical Model of Powder Avalanche Theory and Application 129–145

RAFFAELE AZZARO, LUCA FERRELI, ALESSANDRO MARIA MICHETTI, LEONELLO SERVA and EUTIZIO VITTORI / Environmental Hazard of Capable Faults: The Case of the Pernicana Fault (Mt. Etna, Sicily) 147–162

P. J. BAXTER, A. NERI and M. TODESCO / Physical Modelling and Human Survival in Pyroclastic Flows 163–176

A. J. KAPPOS, K. C. STYLIANIDIS and K. PITILAKIS / Development of Seismic Risk Scenarios Based on a Hybrid Method of Vulnerability Assessment 177–192

Book Review
Robert S. Yeats, Kerry Sieh, and Clarence R. Allen: *The Geology of Earthquakes* (C. LOMNITZ) 193–194

Volume 17 No. 3 May 1998

GIULIO IOVINE and CARLO TANSI / Gravity-Accommodated 'Structural Wedges' Along Thrust Ramps: A Kinematic Scheme of Gravitational Evolution 195–224

V. G. GITIS, R. E. TATEVOSSIAN and A. P. VAINSHTOCK / Maximum Expected Magnitude Assessment in a Geo Computer Environment: Case Study 225–250

Y. CHEN, J. LIU, L. CHEN, Q. CHEN, and L. S. CHAN / Global Seismic Hazard Assessment Based on Area Source Model and Seismicity Data 251–267

L. S. CHAN, Y. CHEN, Q. CHEN, L. CHEN, J. LIU, W. DONG and H. SHAH / Assessment of Global Seismic Loss Based on Macroeconomic Indicators 269–283

Erratum 285

Announcements 287–290

Volume Contents 291–292
